

Finally, Gas Detectors You Can Afford To Own

Lifetime Warranty Includes Sensor

Technology Making Detection Affordable
More information on back

Airspace has a number of gas monitor models, options, and accessories tailored to meet your particular needs. Airspace gas monitors offer the following benefits and features:

- **Lifetime Warranty**– includes sensor
- **Reliable AGS Technology™** - consistent solid-state sensor performance.
- **Low maintenance** - no routine calibration or sensor replacement.
- **Easy to use** - simple on/off with single alarm silence button.
- **Cost effective** - low cost of ownership.
- **Lightweight, rugged design** - weighs just 4.8 oz. with batteries!
- **Portable** - shirt-pocket size measures just 3.9 x 2.3 x 0.9 inch!
- **Certified intrinsically safe** - approved by Underwriter's Laboratory, Inc. for use in Class 1, Division 1, Groups A, B, C, and D environments.
- **Low battery warning** - battery low and battery dead indication.
- **Audible and visual alarm indicators** - alarms at CO levels of 30, 60, 120 ppm and CH₄ level at 5000ppm.
- **Vibrating alarm indicator option** - alerts user to danger even in noisy environments.
- **CO only and CO with Methane versions available** - more functionality for little added cost.
- **Data-Logger versions available** - record ambient gas levels for later analysis.
